1:30pm	<p align="center"><i>Live Demonstration of Lipomatic on Abdomen Dr To, Prof Lim and Dr Chio</i></p>	
3:00pm	<p align="center"><i>Lecture on Stem Cell or Hyaluronic Acid for Penile Enlargement (Live Demonstration if Case Available) Prof Peter Lim</i></p>	
3:30pm	<p align="center"><i>Live Demonstration of the Stem Cell Transplant to the Face and or breast (depending on cases) Dr To, Prof Lim and Dr Chio</i></p>	
5:00pm	<p align="center"><i>Conclusion & Presentation of Attendance Certificate</i></p>	

Important Points to Note:

1 - Liposuction and Fat Transfer can be performed “manually” with nothing more than a suction pump and basic equipment. However, as this congress aims to highlight the “state-of-the-art” and “cutting-edge” technology, we now need to leverage more on technology for easier operations & better results.

2 - One of the most advanced Power-Assisted Liposuction (PAL) techniques is with the Lipomatic, recognised as one of the fastest of its class. Similarly for Ultrasound-Assisted Liposuction(UAL), Vaser technology offers Hi-Definition with unparalleled results.

3 For Fat Transfer, the Lipokit offers a comprehensive system to purify high quality fat with stem cells. Cytori also offers stem cell technology but not the Fat Extraction and purification system.

NOTE: LECTURERS & DEMONSTRATORS

**Dr Chun Fung To, President, Hong Kong Society of Aesthetic Medicine
Specialist Obs-Gyn & Cosmetic Surgeon**

**Dr Roy Chio, President, Antiaging & Aesthetic Medicine Society of Singapore &
Cosmetic Surgeon**

**Prof Peter Lim, Consultant Urologist, President, Society for Men’s Health
(Singapore)**
